

Empower Your Decisions

AccountMate Recognizes Business Intelligence Solution from ClickBase

During AccountMate Software Corporation's annual Synergy 2009 Conference held in Burlingame, CA, October 17 through 21, 2009, ClickBase Corporation was presented with the Emerging Partner award in recognition of the success of ClickBase's Business Intelligence tool integrated into AccountMate's financial software.

At Synergy 2009, AccountMate's Business Partners learned how they can help their clients to use business intelligence to leverage AccountMate's financial information to better manage the clients' businesses. This fully integrated business intelligence and reporting capability gives managers the ability to track key performance indicators on their desktops with customized dashboards and the ability to drill down to transaction level data when needed. This power is expanded as clients combine information from other data sources through ClickBase's unique data integration capabilities.

ClickBase for AccountMate provides a well-defined business decision making tool no matter the size or complexity of an organization. Information is delivered in real-time from the AccountMate financial system combined with any other sources. Managers can make critical decisions based on accurate and timely information delivered in the format needed. The combination also enables paperless support to green initiatives further saving thousands of dollars a year.

ClickBase appreciates the recognition of this award and is proud to partner with AccountMate to provide these values to AccountMate users.

About AccountMate Software Corporation

Founded in 1984, AccountMate develops and markets fully modifiable business accounting software. Systems range from single user versions to those that support over hundreds of users simultaneously. AccountMate software is distributed exclusively through a worldwide channel of authorized solution providers. AccountMate can be reached at (800) 877-8896 or at www.accountmate.com.
